### Instructions

So easy. Just peel and stick the nativity set to the white side of the magnetic sheet. Space them well enough that you can cut easily around them. Not too close and not too far apart. Carefully cut them out. When I cut mine out I leave a white border. It makes it easier to cut and I think it looks better. Arrange them on your fridge.

Find the Story of the Birth of Christ and Share the story with your family using the Nativity Fridge Magnets.

Make sets to give to your Friends or family that have children who might enjoy playing with them on the fridge.

*Fun Tip. You can make different fridge magnets using a magnet sheet and any good size stickers. Alphabets and numbers would be fun. Other little people sets like, sports or friends would be very entertaining as well. Let the sticker section of your local scrapbooking or craft store inspire you.*
