

Chip Canister Penny Bank

Deco-podge comics to make this bank

What you will need

- Mod podge or glue sealer
 - Small container to put the podge into.
 - 1/2 inch to 1 inch wide flat paint brush
 - chip canister & lid (tall or small)
 - Scissors
 - Old comics
 - Plastic or newspaper
 - Paint shirt
- Old Archie comics were used, in shown picture.
Funnies from the news paper work excellent too. Color print, or black and white.

Instructions

Eat all chips, don't forget to share. With a damp soapy dishcloth gently wash out the inside of the canister. Do not let the canister sit in water it will get soggy. Give it a quick rinse with warm water and gently dry thoroughly.

Collect the comics you want to put on the canister. Cut them out.

Pour a little Mod Podge into a small container. It is easier to work with this way.

Start painting on the Mod Podge on a area of the canister. Arrange the comics and overlap them a bit, so that the canister colors do not show through. Paint the Podge over the comics that have been glued down. This will seal the comics and give it a glossy look. Don't over work your brush with the glue, it may tear the paper.

Work in small areas at a time. When canister is completely covered let dry for a couple of hours.

With parent help, cut a small slit in the canister lid that coins can fit through.

Voila a penny bank to collect your savings in, that will sit on your dresser nicely.

Other options are to use any colored paper you like or magazine pictures, be creative!
