### Instructions

This is a little tricky to glue together. Have those cloths pegs handy to use as clamps.

Start by gluing two sticks together at the ends, in a up side-down V shape.

Follow the pattern below to glue together the other sticks.

Clamp them as you go. Shift them around a bit to get the star shape even. Let the glue dry.

Wear a paint shirt and put down news paper or plastic on your work surface. Paint the star silver on doth sides. Let Dry. Decorate with a little glitter glue. Let dry.

Use fishing line or silver 1/4 inch ribbon to make a hanger.

Make several to hang at random lengths from your window, or to hang on your Christmas tree.
